THANX!!!

This is the word we wanted to stick out in this second issue of French Kiss Comix. This word and this word only because when we started this project, we did it with the high hopes that there would be a readership interested in great erotic comics. A readership that would appreciate stars like Kevin Taylor as well as others, who despite their unquestionable talent, haven't gotten the reception in the States that they deserve yet. And major artists from all over the world like Chiyoji, from Japan, and Ferocius, from Chile, have proven that we were right from the very first issue, that you're the readers we've been looking for, and that you do know what's good. For that we've got to say this one more time, and as many times as we need to: thank you for the warm welcome, for your letters, for your e-mails. As optimistic as we were, we couldn't have even imagined how well you received US.

You can rest assured that all the support you've given us since the beginning won't be taken for granted and that in the future, things will only get better. Consider this message a solid promise that we'll keep on featuring work from all the authors you like, and in the meantime, we'll continue our ceaseless search for new artists no one's dared to publish in America. But don't just take our word for it. See for yourselves. All you've got to do is turn the page.

interview by Sergi Puertas

KEVINTAYLOR

KEVIN TAYLOR was born in Harlem, New York, and is currently one of the premier talents in the international erotic comics scene. After starting out working for vanous American publishers, he decided to create his own imprint, Black Lace Studios, under which most of his work is released. His work has also been translated into different languages and distributed in many countries.

Without a doubt, his most popular character is Girl, an exoberant and insatiable black student who romps through the wildest of sexual adventures, as much at school as in the neighborhood where she lives. Taylor always stands out for the spectacular quality of his crotic scenes and for the disproportionate largeness of his male characters' sexual organs, particularly that of Blue, another of his most intriguing characters.

Recently we met Taylor in the following exclusive interview

French Kiss: Now you are one of the most popular erotic artists worldwide. How were your beginnings as an artist?

Kevin Taylor: All I remember of my "beginning" as an artist is drawing and painting all the time trying to get better

French Kuss: Was it hard'

Kevin Taylor: The not thing that was hard was gerting a publisher to print my work

French Kiss: Did you spend a lot of time practicing before being published or was your recognition fast?

Kevin Taylor. You hav get better when you acknowledge your mistakes, lalways make mistakes, and that means I mealways getting better. All the stones I ve done was just me practicitag. Recognition always takes time.

French Kiss: Did you first decide to draw comics and then move gradually to erotic stuff or did you start drawing porn from the beginning?

The Girl Kevin Taylor's most

popular character

"tym" ware learning a method

I ow quality that anyone can de and a easily available. I don't see my work that way. My first book was an action story called Model By Duy and it had a couple at erotic scenes. When I started The Girl next at was going to be the same. After finishing the first ten.

 The worldwide acclaimed Girl has been published in several countries.
 These are the beautiful covers for the Spanish edition. graces I want to a come, book ship out saw there were no comics with hard erotica, so I went back to The Girl and put in sex scenes.

French Kiss: Now you have international recognition. Your albums have been published workdwide... let's see... in how many countries?

Kevin Taylor: So far in Spain, France, Italy, Germany and, of course, America

French Kiss: What techniques do you use for your art? Which do you feel most comfortable with and which do you use most?

Kevin Taylor: I use a lot of techniques and I'm comfortable with all of them. Which technique I use depends on how I feel at the moment.

French Kiss: Your comics and illustrations look really gorgeous. How long does it take you to finish a page, more or less?

Kevin Taylor: I don't keep track anymore. All I not ce is when I start a project and when I turn it wert the publisher. The time in between is just in a working.

French Kiss: Which of your works are you most proud of?

Kevin Taylor I'm proud of all of my work. That's why I put my name was

French Kiss: One of the things you are well known for is the enormous male attributes you draw Did you decide to draw them so big intentionally or did it just happen? Why?

Kevin Taylor. Most sex comics are done by men who only focus on higher his Maybe they become insecure when they draw men, thinking people may thank they regay it they draw a gray species lip at the light, if we draw women like that goal, the way I on the apack about it. The hands thing is, women like the second gray and it is the only thing gray task about with my work which means they look for it, too I we even gotten letters and met people who contessed my work got them laid. I grees I mojust doing my part to bring the sexes together.

French Kiss: Does your family regularly see your art? What do they think of your job?

Kevin Tailor, Mytania, Lives my work and are ven supportive

French Kass: Now, really, does being a famous artist help when it comes to getting laid?

Kevin Tavi v. I litet wou know when it happens

French Kiss: What do your girlfmends think of you being an erotic comics star?

Keyan Taylor You'll have to ask them

French Kiss: Do you have a lot of female fans?

Kevin Taylor: A few. Most of them saw my work through their boyfriends, then started going to comic shops with their female friends.

French Kiss: Have you ever dated fans of your comics? Kevin Taylor: No, they became fans after we met.

French Kiss: What is a day in the life of Kevin Taylor like? Kevin Taylor: I wake up, eat, shit, work and sleep. Sometimes I bake cookies.

French Kiss: Now, the typical question in all interviews: what are your projects for the future?

Kevin Taylor: My next project is a new four part full color series intled Girl-The Second Coming. I'm now working on the second book and when this series is done. I was thinking of becoming a proctologist for the fashion industry. Just for the girls.

Nacre Point is part of a small, exclusive banana republic, most of whose inhabitants are wealthy Americans with nothing else to do but to take advantage of the paradisiacal surroundings and the local laws, created to benefit the rich tourists. The poor local girls are also part of the benefits they enjoy. Pearl is one of these young ladies. She's involved with Tim Railton, a painter whom she butters up and whose fantasies she helps bring to life. But she's also just met Byron Kerr, one of the aforementioned wealthy residents, with whom she had a torrid sexual encounter on the beach. And it's this steamy first meeting that Byron can't get out of his head. Even when he's in bed with his girlfriend, Pearl keeps popping

They told me just as I was coming in the blonde's mouth. They found my sister wandering around, lost, through the outskirts of Beverly Hills (my sister outside of Beverly Hills! She must have been out of her mind). Her girlfriend had left her the day before, and Anne, in a state of shock, went out into the streets, started walking and didn't stop until, completely disoriented, she knocked on the door of a house in a black neighborhood and asked for help. She could barely put two words together. She was completely nuts. They didn't know who to call, and that's why they called me. After all, I was her only living family member. I finished coming, I grabbed the blonde's lips and squeezed. The cum spurted onto the sheets like sleet

-You shouldn't have left my sister, Ellen.

I jumped out of bed and got dressed. I caught a flight from Las Vegas to L.A. I couldn't get up and move around during the whole flight, so I concentrated on nibbling the ear of the stewardess antil she sat down next to me. She delicately jerked me off right before we landed

Anne was really had off. She couldn't remember anything that had happened, and she didn't even know who she was. She'd temporarily lost her memory. According to the doctor, it was a typical consequence of the strong psychological shock sae'd suffered, but it wasn't okay at all with me that my own sister couldn't recognize me. My little sister was too emotionally dependent. She always was, ever since our dad, a Protestant pastor, Jied of Aids when she was thirteen. I was only eleven, but at that time, I had other things to worry about, like my extracurricular activities

with my Algebra teacher. After recommending test and a few days of utter calm and mactivity, the doctor left us alone in the large and haximous living room of my sister's mansion. Anne had good taste, within the limits of what you could consider good taste on the California coast. She was wearing a pair of studiously

worn-in jeans and a big, light brown polo and sipping tea with a lost look on her face. I watched her, sitting in front of her, admiring her blue eyes, the only thing we both inherited from our father before his gay tendencies put an end to his choice of lovers. Her big eyes studied mine, with a certain shame, as if she was embarrassed to not have recognized me.

-Hi -she said, simply.

 Hi, Anne –I responded, and I surprised myself hearing a tone in my voice that was more affectionate than I'd ever had with anyone, especially with any woman. She was probably the only person in the world that Hoved

She smiled weakly at the sound of her name, which meant nothing to her, and she concentrated on taking in the things around her, in the den-Once in a while, she looked at me out of the corners of her eyes, as if she was getting the lay of the land. Finally, she asked me.

-Who... who are you? Your face is familian.

I was perplexed

-No one...no one told you?

-No. Everyone assumed that you're someone very close to me. And I've got a feeling this is true. Who are you! Are y at my

-I'm your

ausbar ç

The answer surprised me as much as it surprised her. Her smile was a big one this time, as if it were a show of thanks for having guessed correctly. she took another sip of tea and set it on the table

-Oood, if that's the case, then don't you think it'd be a good idea if we went to bed?-The old Anne was coming out without her even knowing.

I'd really like that, and that could only be a good sign, don't you think?

I swear that this time I had nothing planned. How could I plan that Anne would not only not remember me, much less think I'm her husband, and even more, forget that she's a lesbian?!! I staved frozen to the spot for a minute, and then Anne came over to me, took my hand and pulled me along until I started following her into the only bedroom in the world I'd sworn myself to never enter. Anne turned to me, pressing herself against my stomach. I felt something very hot in my belly.

-Undress me

She wasn't wearing a bra. Her breasts, small and bouncy, each pointed to the sides, willfully, her hard pink nipples sticking out like the teats of balloons. She lay Jown on the beadspread while I took off her jeans, and her tanned and silky legs were fantastic, as she rediscovered her human nature and therefore. her sexuality. She took her white panties off herself, and I recognized her tutt of brown pubic hair, the same tuft, but fuller, that I discovered one morning many years ago, when I went into our childhood bedroom and I caught her sleeping with her nightgown pulled up and her hand between her legs. I sank into her arms with the best hard-on I can remember. I kissed her fine eyebrows, her immense eyes, her lovely nose as big and fleshy as a clown's- my favorite feature of Anne's, and her thin, long lips, the things I loved most about her and those that I didn't. My sister's body adhered to mine, and, like a baby searching for the maternal breast, the mouth between her legs locked onto my cock, hungrily, as if our coupling were the most natural thing on earth

-Anne, Anne... -I started to whisper, while my cock slid softly inside her, each time with more precision. Her pussy was hot as hell, and sweet as heaven

-Aaaah, yes... I love you .. - I whispered, and the sickness of what was happening heightened my pleasure, mixing the mild with the wild, and VICE VETSA

I grabbed her blond hair with both hands and thrust deeper insider her until the reflection of my eyes in hers blurred. I bit her earlobe and her nails dug into my back, her own back arching in anticipation of orgasm.

-Aaah, aaah! she started to scream.

-Anne, Anne! -I yelled back, on the verge of coming inside my sister

-Frankie! she howled. She opened her eyes, in the middle of her orgasm, and my last shot of cum spurted inside her at the same time that her eyes stared right into mine, and I saw the recognition in them.

-What...what the fuck are you doing, you son of a bitch?(1)

I thrust inside her a few last times while I searched for a plausible exptanation.

There wasn't one

"But she made me so horny, selfish bitch, that I had to console myself with her; we don't turn down a chance at anything..."
"YEAH, YEAH...YOU KNOW MONICA; COCK SHE SEES, COCK SHE WANTS, ENVIOUS BITCH. BETWEEN THE HEAT AND THE PHOTOS, SHE WAS GUGHING...
